

Technology Advantages

Our technology is modular and web-based, designed to support all facets of revenue cycle management. It can be licensed for all modules or through SaaS contracts. The software offers configurable business rules, claim edit checks, claim scrubbers, charge creation, rate tables, reimbursement methodologies, ledger transaction entry in accordance with GAAP, patient and entity invoicing, letter library, and denials management workflows.

Key Advantages

-  **Scalability & Flexibility:** Our platforms cater to businesses of all sizes. The modular design ensures that you pay only for what you need.
-  **Real-Time Analytics:** With ARMS PRO® & FRAMES, access real-time data analytics, which provides insights into your revenue cycle, enabling timely and informed decisions.
-  **Secure & Compliant:** Our platforms are built with top-notch security protocols, ensuring the protection of sensitive financial data. They are also compliant with industry standards.
-  **Streamlined Workflows:** Automate and optimize your accounts receivable and financial recovery processes, reducing manual errors and boosting efficiency.
-  **Seamless Integrations:** Easily integrate our platforms with your existing systems, thanks to our API-first approach.
-  **Cloud-Based:** Being cloud-based means you can access our platforms anytime, anywhere. This ensures continuous operations.
-  **Cost-Efficient:** Save on IT infrastructure cost with our SaaS contracts. With regular updates and maintenance included, say goodbye to unexpected expenses.

Our solutions are powered by proprietary ARMS PRO® and FRAMES platforms:

ARMS PRO® - Accounts Receivable Management System Provider Reimbursement Optimization.

FRAMES - Financial Recovery Assistance Management and Eligibility Solution.
